TSA Waiver Request Statement of Work

You have requested we fly a site located inside the Washington, DC Flight Restriction Zone (FRZ.) The FRZ is a 15 nautical mile radius around Reagan National Airport (DCA.) Unless the project is a local, state or federal government project we are currently not permitted to fly within 7 nautical miles of DCA. If your project is government related it helps to include this information in the statement of work (SOW).

A SOW is required as part of the waiver request we submit to the Transportation Security Administration. **The SOW must be on your letterhead and signed by a representative of your company.** You may email your SOW to us at Waivers@DCAirPhotos.com or fax to (703) 281-6700. The SOW does not need to be long or complicated, but it **must be on your letterhead and signed.** The information needed is the location and description of the property and how the images will be used.

Below is a sample.

[Today's Date]

Aerial Photographers, LLC

We request Aerial Photographers, LLC take aerial photographs of our [construction project, commercial/government building/development, undeveloped land, etc.] located at [address/intersection, city and state]. These images will be used for [construction payment submissions, financing/refinancing, development planning, permit submissions, marketing, etc.]
